PREFACE

THE Catalog of Copyright Entries for the year 1947 is issued in a new series and an enlarged format, a change designed to increase and extend the usefulness of the compilation. Inquiries, suggestions and comments on all details of the Catalog are solicited, and should be addressed to the Chief of the Cataloging Division, Copyright Office, Library of Congress, Washington 25, D. C.

CONTENTS. This part of the Catalog of Copyright Entries contains a list of pamphlets (except for a few selected titles that are included in Part 1-A, Books and Selected Pamphlets) and serials registered in the Copyright Office in Class A under the symbol "AA" from July 1, 1947 through December 31, 1947. It includes also entries for contributions of a literary nature to periodicals registered in class B-5, and items, chiefly of a serial nature, registered in the following classes but not included in Part 1-A of the Catalog: A (books proper), AF (foreign books in a foreign language) and AI (books first published abroad in the English language). In addition there are included some registrations made during the first six months of 1947, and some corrections of entries that appeared in the Catalog for the first six-months period of 1947. Renewal registrations for these classes made in the second half of 1947 are listed in Part 14A of the Catalog.

ARRANGEMENT. The works listed in this Catalog are entered under main headings (personal or corporate author, editor, etc.) or are listed under title. They are arranged alphabetically together with cross references from joint authors, editors, etc., and from a few titles.

ENTRY. Under the main heading each monographic entry includes the title, illustrators, editors, and all joint authors unless there are more than three in which case only the first is given, edition information, and place of publication and name of publisher if available. Of the physical characteristics of the work, there are given the number of pages or volumes and the abbreviation "illus." if the work is illustrated. Where these elements are not present the work is briefly described as a "sheet," "folder," "device," etc. If the work belongs to a series, the title of the series is given.

COPYRIGHT DATA. The statement of copyright facts following each entry begins with the copyright symbol ©. The symbol is followed by the name of the copyright claimant, together with his address, and by day, month and year of publication as given in the application. Date is followed by the registration number, preceded by one of the following symbols: A (books proper); AA (pamphlets, leaflets, etc.); AF (foreign books in a foreign language); AI (books first published abroad in the English language). However, if the name appearing in the heading is the same as that of the copyright claimant it is not repeated in the statement of copyright facts but the copyright symbol © is added to the heading, followed by the address of the claimant. For ad interim works, the date the work was deposited in the Copyright Office is given in addition to the date of publication. Copyright statements for United States editions for which ad interim registration was previously made are followed by a statement of the ad interim registration when this information is available. Where the claim is based upon new matter and no edition statement is available a brief description of the new matter is given before the date.

DEPOSIT OF COPIES. In the case of every copyright entry listed in the catalog, the deposit of copies (or copy) as required by Title 17, U.S.C., secs. 12 and 13 has been made.

AUTHORITY. The Catalog of Copyright Entries is published pursuant to the authority given in the provisions of Title 17, U.S.C., secs. 210 and 211. Section 210 provides that the Catalog "shall be admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."
